

Imagine actually freeing humanity from the threat of extinction by returning the LOVE-vibration, its instruments and voices, silenced by the “Blue Meanies,” as in The Beatles animation *Yellow Submarine*.

“You say you got a real solution?”

Well you know . . .

We’d all love to see the plan.”

John Lennon, *Revolution*

Join “The Experiment” June 19-21, 2009, online or at venues around the world. Help co-create peace, health and prosperity musically, vibrationally, lovingly, and *hydrosonically* with the newly recovered frequencies of nature.

### The Plan to Fulfill The Prophecy

You groove to your favorite music on radio until someone changes the station or you lose the clear-channel. One tenth of a digital difference creates waves of static and stress that gets on your nerves. If you don’t fix it by retuning, and keep listening to the static, eventually you get sick and may even die. Now imagine what happened when the “authorities” changed the world’s “standard” musical tuning centuries ago from 417Hz, to which all nature still vibrates, to 440Hz—as far away as you can get from one of nature’s nine most powerful creative vibrations.

Now you know why, according to recent discoveries in hydrosonics and medical science made by some of the world’s most brilliant researchers, you are only using about 5% of your brain!

We have a plan to remedy this tragedy, to fulfill many prophecies and cease suppressed spirituality for greater creativity, to solve the world’s inequities; to promote peace, health, and global prosperity. It’s called **LIVE H2O**, or “**The Concert for the Living Water(s)**,” which we are convinced could be among history’s most important and impactful events.

According to modern science and ancient scripture, water exists throughout space, and all creation emerged from the sound of music, including the frequency of LOVE believed to be 528Hz, vibrating water.

**CONCERT**  
 FOR THE LIVING WATERS  
**LOVE H<sub>2</sub>O**  
**Summer Solstice**  
**June 19-21, 2009**

So water, as *the* superconductor of creative energy, does more than clean messes. The liquid crystal “creative juice” sustains biology, universal unity, and the miracle of spirituality. So, to recreate yourself in optimal health, and restore our planet to its fullest blessing, we plan to sing a “new LOVE song” during LIVE H2O, and pray that you will lend your voice to the chorus.
